Our manufacturing and warehouse facility in Sugarcreek, Ohio

We are LuxCraft, makers of fine outdoor products, and we're pleased to meet you!

Founded in 1990, LuxCraft began as a small business in the corner of a barn, exclusively manufacturing outdoor wood furniture. In the years that followed, as LuxCraft's product line expanded to include outdoor structures and poly furniture, our facilities and dealer base grew accordingly. Flash forward to present day and you'll find our product being made in a 56,000 square foot shop before being distributed to hundreds of dealers throughout the US and Canada.

So what distinguishes LuxCraft from other outdoor product manufacturers? Our first priority is quality, and all furniture and structures are built to last. With 60,000 square feet of warehouse space, we stock over

30,000 items for immediate pick-up or shipment year round. What's more, LuxCraft poly furniture comes with a residential lifetime limited warranty or commercial 5-year limited warranty.

Though LuxCraft is now operating on a much larger scale, employing 45 people instead of two, our core values remain the same. Each transaction is handled with integrity and focus on customer service. We build our products with emphasis on durability and longevity, then price it accordingly. Best of all, LuxCraft products are made right here in America (Ohio to be exact) so by buying our products you're not only improving your outdoor space, but boosting the economy as well.

THE LUXCRAFT DIFFERENCE

Customer Service

Our customer service and sales team is always on-hand to answer questions or assist with orders. We believe the key to good business is a personal relationship with customers, and we strive to achieve that with every interaction.

LuxCraft Design Center

With the LuxCraft Design Center, you have complete control over the finished product, from size, material, and color to how the structure is delivered. Our step-by-step system ensures the process is as easy as possible. See page 21.

Quality

Why choose a LuxCraft outdoor structure? Our first priority is quality, and all gazebos, pavilions, and pergolas are built to last. We're constantly reevaluating products to ensure you're receiving nothing but the best.

Made in the USA

LuxCraft products are made right here in America (Ohio to be exact) by skilled craftsmen in our 56,000 square foot shop. Each product is hand-crafted and inspected before it's allowed to leave the shop.

Stainless Steel Fasteners

All LuxCraft products are assembled with stainless steel hardware for optimum durability. Stainless steel is corrosion and stain resistant, which ensures its brilliant shine will last for years to come with very little maintenance.

Attention to Detail

Our craftsmen don't cut corners and nowhere is that more evident than our metal roofing. No screws mar the ridge-cap surface, and we use extra material to cover the gap at each corner. Attention to details take LuxCraft structures to the next level.

Enrich Your Outdoor Living Space

A LuxCraft gazebo is a perfect addition or enhancement for any garden or yard. Whether attached to the deck, set near a pool, or planted in the landscape, these structures are an outdoor room in their own right and offer a protected spot for dining, cooking, or relaxing. Choose from LuxCraft's numerous styles and options to create an aesthetically pleasing structure you'll enjoy for years to come.

LuxCraft Window System

Tint in Lower Position

Tint in Second Position

Tint in Third Position

Tint in Upper Position

Simple Operation

The 4-track window system height is divided into four vents. Glazed with a tough resilient vinyl, the vents are available in four different tints*: clear, smoke, bronze, or dark gray. The vents are all the same width, allowing them to be interchangeable, so the tinted ones may be positioned for better protection from the sun. The vertical window closes to reduce wind, rain, pollen, and sound. The units are lightweight and move effortlessly along the guide tracks, stacking up or down to allow a generous 70% ventilation opening. The windows can withstand a wind load of 75 mph.

**NOTE: All windows are standard with the top three vents in clear, and the bottom vent in bronze tint. Please specify if you would like any other tint.*

Virtually Maintenance-Free

The vertical 4-track vinyl glazed window and screen system is constructed of extruded aluminum. The frames have stainless steel hardware and an integrated fiber mesh screen. The screen system covers 100% of the window, leaving no gaps for bugs to enter. All the vents are easily removed for cleaning. Do not use harsh detergents containing bleach or ammonia. Simply remove dust or grit with a soft brush or hose down with water when cleaning is needed. We also have a vinyl window cleaner and polish (made exclusively for the window system) available for your use.

Easily Repaired and Safe for Kids

Although not likely, the vinyl can become damaged. If your kids do happen to crash into the window and puncture it, you can have that safe feeling knowing they won't cut themselves. Simply return the damaged vent to us, and we will replace the vinyl for free!

Hand-Selected Natural Wood

- Wood is sustainably harvested, making it a renewable resource and environmentally-friendly.
- We only use select grade, micro-pressure treated, kiln-dried yellow pine.
- Lumber is air-dried for five to six months to eliminate shrinkage, warping, and checking.
- Lumber is hand-selected for maximum structural strength and beauty.

Low-Maintenance PVC Vinyl

- We use vinyl containing recycled content for a minimal environmental footprint.
- Vinyl is virtually maintenance-free, requiring no paint or sealant.
- A hard-wearing material, it won't rot, crack, or peel.
- Exceptionally easy to clean: dirt can be washed away using only a sponge and a hose

Wood Gazebos

When you're looking to create an atmosphere of warmth and nostalgia in your outdoor space, our wood gazebos are the ideal addition. An assortment of stains and roof coverings help complete the aura.

- 1: 12' x 18' Oval Heavy Duty Colonial
- 2: 12' Octagonal Colonial

Square and Rectangular Gazebos are an efficient use of available space while still having an appealing appearance.

- 3: 10' x 12' Oval Classic
- 4: 10' Square Classic

Wood Gazebos

1: 12' 10" Square Brookside
2: 10' x 14' Rectangular Classic

3: 16' Octagonal Classic
4: 12' Octagonal Heavy Duty Colonial

5: 12' Octagonal Three Season
6: 16' Octagonal Brookside

7: 10' Square Classic

- 4:** 24' x 24' Colonial Vinyl
- 5:** 24' x 24' Classic Wood
- 6:** 16' x 20' Colonial Wood

- 7:** 16' x 34' Classic Wood
- 8:** 20' x 24' Classic Vinyl

LuxCraft Gazebo Design Center

Your Dream Starts Here

If you've been paging through this catalog thinking, "These outdoor structures look great, but I wonder if I could get a Classic Gazebo with steps or try a different color combination," then this section is for you.

With the LuxCraft Design Center, you have complete control over the finished product, from size, material, and color to how the structure is delivered. Our step-by-step system ensures the process is as easy as possible whether you're designing a gazebo, pavilion, or pergola.

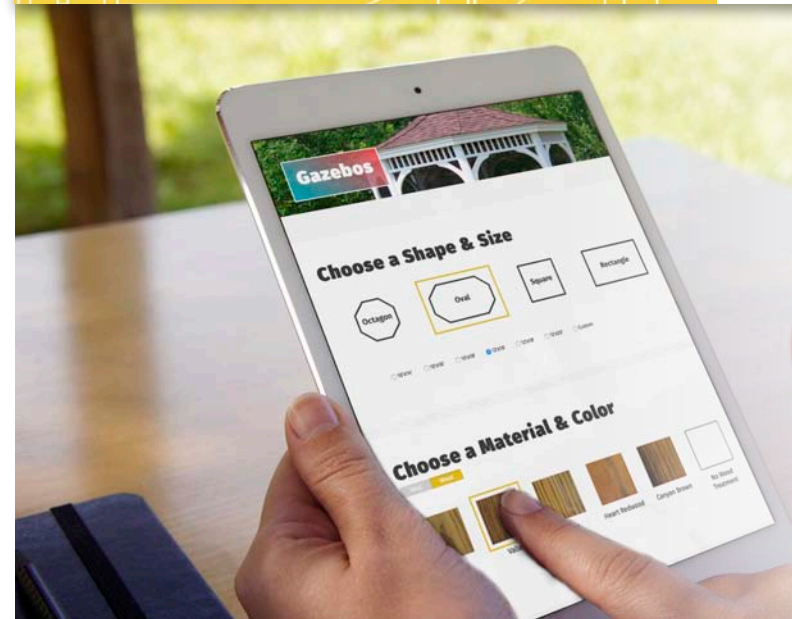

Improving your backyard with your dream outdoor structure is simple—just turn the page!

12' x 16' Outdoor Kitchen
Up to 75% Ventilation
Protection for your kitchen supplies and grill

Outdoor Kitchens

Hoping to enjoy your meals poolside? Instead of traipsing in and out of the house, why not opt for an outdoor kitchen that can turn your backyard into a haven of hospitality?

Online Configurator

Not quite ready to pick out the options for your very own outdoor structure? Visit **LuxCraft.com** at your leisure and let our interactive gazebo, pavilion, or pergola configurator be your guide to the nearly endless combinations available. Once you're satisfied, you can print your unique specifications and bring them to your local LuxCraft dealer to place your order.

Site Preparation & Delivery

Please Note:
Customer is responsible for preparations and permits.
Limestone pad should be 12" wider than gazebo size on all four sides.
The finished site should have 2" limestone at the shallowest point.
It is very important that the site be level and flat after the limestone has been added.
If site is not level, additional fee will be charged.

IMPORTANT
Your site must be level, not just flat.

Delivery
With a tilt-bed trailer, your gazebo can be delivered pre-assembled and slide directly onto your limestone pad.

Complete the Experience

If you're looking for outdoor furniture to go with your new LuxCraft gazebo, LuxCraft poly furniture is your best bet. Poly Furniture is low-maintenance, allowing you to spend more of your precious time enjoying the outdoors.
